Hotkey	Action	Notes
C-g	Cancel a partial command	
C-v	Down a screenful	
M-v	Up a screenful	
C-l	Move line at cursor to middle of the screen	If pressed twice, will go to top of screen. Thrice, to the bottom.
C-p	Up Arrow (P revious Line)	
C-n	Down Arrow (N ext Line)	
C-b	Left Arrow (B ack)	Mapped to up for some reason
C-f	Right Arrow (F orward)	
M-f	Forward a word	
M-b	Back a word	
C-a	Move to start of a line	
C-e	Move to end of a line	
M-a	Move to start of a sentence	
M-e	Move to end of a sentence	
M-<	Move to start of the buffer	Requires shift key to type "<"
M->	Move to end of the buffer	Requires shift key to type ">"
C-x C-c	Exit Emacs	
C-u <num> <cmd>	Repeat <cmd> <num> times	
C-x 1	Go back to only 1 window (delete all other windows)	
C-d	Forward delete	
M-	Back delete a word	
M-d	Forward delete a word	
C-k	Delete from cursor to end of line	Running once deletes the line's contents, running twice deletes the newline too.
M-k	Delete to end of sentence	
C-<SPC>	Start a selection	Doesn't work, because C-<SPC> toggles iTerm
C-y	Yank (paste)	Doesn't seem to work
C-/, C-_	Undo	
C-x C-f	Open ("find") a file	
C-x C-s	Save the file	
C-s	Forward search	
C-f	Backwards search	

C-x 2	Split Screen	
C-c C-e	Send form from buffer to lisp interpreter	You must be in or after the relevant form.
C-c C-c	Cancel current command	
<ESC> x run-lisp	Run Lisp
